Acceptable Computer System Use

Winchester Public Schools provides a variety of educational technologies including computer hardware, software, networked and internet-based resources and communication links for the use of students only as an integral part of the instructional program. Students are responsible for the appropriate use of these resources. All policies and regulations of Winchester Public Schools governing student conduct shall apply when students are using educational technology. The

use of this technology for any improper or illegal activity is prohibited. The complete Acceptable Use Policy IIBEA is available for review on our website, www.wps.k12.va.us, or from the school's office.

I. Purpose - The School Board supports the use of technology for purposes of educational research, communication, and instruction, and to provide access to unique resources and opportunities for collaborative work. In furtherance of its approved curriculum, the School Board provides a Computer System, which includes the Internet, the use of which must be consistent with this Policy, the educational objectives and work climate of Winchester Public Schools ("WPS" or the "Division") and other School Board policies, regulations, and directives.

The term Computer System includes, but is not limited to, hardware, software, data, communication lines and devices, display devices, printers, CD/DVD and other media devices, flash drives, servers, mainframe and personal computers, tablets, laptops, cellular and network phones, including smart phones, the Internet and all other electronic services and internal or external networks (the Computer System"). All use of the Computer System must be for educational purposes or legitimate school business. The Computer System is not a public forum and is not intended to be a forum; its purpose is to advance the Division's communications, curriculum, and work. This Policy applies to all users of the Computer System. By using or accessing the Computer System, the user agrees to abide by this Policy.

Winchester Public Schools established and manage an instance of G Suite for Education, a set of free productivity tools for classroom collaboration provided by Google, and utilize additional services with the G Suite for Education platform as deemed appropriate and that support education purposes at Winchester Public Schools.

Use of the Computer System is a privilege, not a right, and can be withdrawn by the Division at any time, with or without prior notice. Any communication or material generated using the Computer System, including without limitation electronic mail, social media posts, instant or text messages, and other files, may be monitored, read, and/or archived by school officials without prior notice, reason, or permission, even if the communication or material was deleted from a user's account.

II. In General

A. The Computer System shall be used as follows:

1. The Computer System must be used for either an educational purpose or for legitimate school business. The term "educational purpose" includes, without limitation, use of the Computer System for class assignments; instruction, including the development and preparation of lessons and assignments; professional or career development; and otherwise in furtherance of the School Board's vision, mission, approved curriculum and other educational objectives.

2. The Computer System may not be used for commercial purposes. The term "commercial purposes" includes, without limitation, use of the Computer System for the purpose of promoting or soliciting the sale of an item or the promotion or solicitation of a service that does not have an educational purpose or is not for legitimate school business; purchasing personal, family, or household items; to

obtain a monetary or personal gain; to solicit membership in or support of any non-school sponsored organization; or to raise funds for any non-school sponsored purpose, whether profit or non-profit. No staff member shall knowingly provide names, e-mail addresses, or other personal information to outside parties whose intent is to communicate with staff, students and/or their families for non-school purposes.

3. The Computer System may not be used for political lobbying or campaigning. This activity includes, without limitation, sending e-mails or making web postings or advertisements that advocate support for a particular political position or candidate; however, nothing in this Policy shall be construed to limit staff and students from using the Computer System to communicate with their elected representatives and to express their opinion on political issues for educational purposes.

B. The following definitions apply to this Policy:

1. The term "staff" or "staff member" is defined to include all School Board employees, including without limitation all administrators, counselors, teachers, coaches, employees of virtual school programs (to include but not be limited to distance learning, on line programs) and vendors providing instructional services to students, as well as all student teachers, interns and practicum students, volunteers and community members.

2. The term "immediately" is defined as reporting a situation that may constitute a violation of this Policy within twenty-four hours of the first suspicion of the violation.

III. Areas of Responsibility - Staff and students must comply with, and are responsible for monitoring, enforcing, and reporting infractions of this Policy as follows:

A. Central office managers (i.e., department supervisors and directors) and building principals and other school-based administrators shall be responsible for ensuring that this Policy is followed.

B. The Director of Technology will serve as the coordinator to oversee the Computer System and will work with other local, regional, or state organizations as necessary. All purchases of hardware, software, on-line resources, and other services must be evaluated and approved beforehand by the Director of Technology or designee.

C. The building principal or designee will serve as the building-level coordinator for the Computer System and will support the building-level activities and Computer System, ensure that staff receives training pursuant to this Policy, maintain student permission data, ensure that students receive training pursuant to this Policy, and be responsible for implementing and interpreting this Policy at the building level.

D. Teachers shall be responsible for guiding and monitoring student use of the Computer System.

E. Students shall be responsible for adhering to this Policy and using the Computer System for assignments directly related to the curriculum.

F. Parents and guardians shall be responsible for ensuring that their child (ren) adhere to this Policy and use the Computer System for curriculum related assignments.

A. Content Filtering. Pursuant to the federal Children's Internet Protection Act, 47 U.S.C. § 254, and Va. Code § 22.1-70.2, the Division shall select and implement a technology protection measure to filter or block Internet access, for both adult and minor users, through the Computer System, to material unrelated to the Division's educational vision, mission, and approved curriculum, and to:

1. Pornography, including child pornography, as defined by 18 U.S.C. § 2256 and Va. Code § 18.2-374.1:1;

The technology protection measure will be enforced during any and all use of the Computer System as required by law. The current technology protection measures include without limitation managed networks, firewalls, Internet filters, virus controls, and monitoring devices. Despite its best efforts, it may not be possible for the Division to restrict access to all prohibited materials. User activity and the

operation of filtering protection measures will therefore be monitored to ensure compliance with federal and state law, this Policy, and other School Board policies, regulations, and directives.

B. Student Training. Pursuant to Va. Code § 22.1-70.2, WPS will provide Internet safety training to all students. Internet safety instruction is integrated into the K-12 curriculum. Parents and guardians may request alternative activities for their child(ren) that do not require Internet access by notifying the building principal in writing or completing the Parent Permission Form for Student Involvement issued with the Student Handbook. Parents and guardians may also request to view the content of their child's user file.

C. School Board employees who violate the provisions of this Policy, applicable state and federal law, applicable School Board policies, regulations, and directives, and/or applicable building-level rules shall be subject to disciplinary action in accordance with the School Board personnel policies.

D. Non-employees violating this Policy shall have their access privileges immediately suspended.

VIII. Computer System Monitoring and Related Searches

A. Users have no right of privacy and should have no expectation of privacy in materials sent, received, or stored on the Computer System. The Division reserves the right to monitor and review all usage of the Computer System at any time, for any reason, with or without prior notice or permission.

B. Routine maintenance and monitoring of the Computer System may lead to the discovery that the user has or is violating this Policy or other School Board policies, regulations, and directives.

In the event an account or password is known or suspected to have been lost, stolen, or disclosed, the user shall immediately report the incident to technology staff and new passwords will be created.

IX. Software and Hardware. Only school or Division licensed software approved by the Director of Technology may be installed on the Computer System. No school-licensed software may be copied for use on other school's Computer System unless this right is specifically granted in the school's license agreement. Software may only be installed by technology staff members. All licensing and registration materials shall be furnished to the building Technology Resource Teacher, who is responsible for maintaining licensing records on a building level. The Director of Technology will maintain records on Division licensed software.

Staff shall provide guidelines and lists of resources to assist students in channeling their research activities effectively and properly. Staff shall assist their students in developing the skills to evaluate the truthfulness of information, distinguish fact from opinion, and engage in discussions about controversial issues while demonstrating tolerance and respect for those who hold divergent views.

XI. Acceptable and Unacceptable Use

A. Acceptable Use. Use of the Computer System shall be consistent with the educational vision and mission, approved curriculum, and work of the Division, as well as the varied instructional needs, learning styles, abilities, and developmental levels of students. Staff are to utilize the Computer system for educational purposes, legitimate school business, and performance of job duties. Incidental personal use of the Computer System is permitted as long as such use does not interfere with the staff member's job duties and performance, with system operations, or other system users. "Incidental personal use" is defined as use by an individual employee for occasional personal communications not occurring during instructional time and is not otherwise prohibited by this Policy.

B. Unacceptable Use. The following is a non-exhaustive list of examples of unacceptable uses of the Computer System:

1. **Engaging in Illegal and other Unacceptable Activities.** Users shall not use the Computer System to:

8. Staff Acceptable Use of Email and Other Electronic Communication

a. **In General.** The Computer System provides opportunities for increased communication and collaboration for both students and staff. As students and staff are connected to the global community, their use of new tools and systems brings new responsibilities. Any electronic or online communications by staff with other staff, students and parents must be transparent, accessible to supervisors and parents, and professional in content and tone.

Electronic communications should not replace in person and telephone communication, which are better modes of communication for conveying meaning and context and should be used whenever possible. Staff using electronic and online communication shall adhere to the following guidelines:

- i. Any staff member who has a reason to suspect that inappropriate communication is occurring between a staff member and student or among staff members shall report the matter immediately to their principal.
- ii. Staff members who correspond with students or parents via email must use only the Division's email system to receive or send email. Staff correspondence with students is strictly limited to school related content.
- iii. Staff members who correspond with other staff members about school related business must use only the Division's email system to receive or send email.
- iv. Staff should not include detailed student information in any email or document attached to an email. Staff shall not use or attach a document that reveals a social security number, biometric record, or student identification number that could be used directly or indirectly to gain access to education records. When referencing students, the email shall be limited to basic factual information and exchanged only between parties who have a legitimate educational interest in the information and in the student that is the subject of the correspondence.
- v. Electronic resources must never be used to discuss contentious, sensitive, emotional or highly confidential issues. These issues should be discussed in person or by phone. Emails should be short and directional in nature and only include objective factual information. Examples of such factual information are set forth in Section 8(B) below.

- vi. Staff members are responsible for all email sent from their account, and should take care to protect access to their account by keeping their password secret and by logging off when not using their account.
 - vii. Electronic communication should be consistent with professional practices for other correspondence. This includes grammar, format and salutation.
- b. Acceptable uses of staff to parent email or other electronic communication.** Examples of this acceptable use includes providing general information about class activities such as curriculum, homework, tests, special events and school announcements; making arrangements for meeting/telephone call regarding a student issue, including a general description of the issue; and following-up on an issue that has previously been discussed. Any discussion related to other students or staff members is not appropriate.

- c. Acceptable uses of staff to student email or other electronic communication.** Examples of this acceptable use includes discussions specifically related to class activities, such as curriculum, homework, tests, special events, and school announcements. There should be no discussion related to other students, discussion about the personal life of staff members or students, or sensitive information regarding the student's performance.

- d. Establishment of social media accounts or accounts on educational sites for instructional purposes.** Staff may establish one or more social media accounts or accounts on educational websites solely for educational purposes. Staff must notify the building principal of their intent to establish such accounts and the building principal must approve and monitor each account.

These accounts shall not be used for personal communications and are to be separate from staff members' personal social media accounts. Any such site shall have a clear statement of purpose and outcomes for the use of the account, and a code of conduct for all participants. The staff member establishing the account shall apply appropriate security and privacy settings, be responsible for the account's content, diligently monitor the account for inappropriate content, and post only information related to the account's purpose that is appropriate for viewing by students, parents and the community at large. Students should not be required to create a login in order to access or view the information. When appropriate, links to these accounts shall be posted on the school's webpage, as outlined in Policy CJA-Website Development and Management. Staff members are expected to read and understand all terms of service and privacy policies associated with the social media and educational site accounts they intend to use for instructional purposes.

- e. Personal social media accounts.** Staff members are expected to be role models. Material posted on staff members' personal websites, accounts, and social media websites must model the behavior that staff members are expected to exhibit, as a role model, both on and off campus and school related activities. Inappropriate content, including without limitation, material that compromises a staff/student professional relationship or boundaries, messages and pictures that diminish a staff member's professionalism, discredits his/her capacity to maintain the respect of students and parents, or that impairs the ability of that staff member to serve as a role model for students, is prohibited. WPS expects the following in regards to personal electronic communications, use of social media, and other online communications:

- i. WPS prohibits any students and staff members from establishing an online social media relationship through their personal social media websites. Interaction between staff and students on a social media websites must be for educational purposes only, as set forth in section XI(B)(8)(d) above.
- ii. Staff and students shall not use Internet resources that require the establishment of a student account or login that is not administrated or monitored by WPS.
- iii. Students appearing in individual or group photographs shall not be individually identified.
- iv. Staff shall not post comments about students.

XII. Non-Computer System Use. The School Board has no legal responsibility to regulate or review Internet messages, statements, postings, or acts either made off-campus or not made on, through, or in connection with the Computer System. The Division reserves the right to discipline students and staff for actions taken off-campus or independently of

the Computer System, which would violate this Policy or other applicable School Board policies, regulations or directives if occurring on-campus or on, through, or in connection with the Computer System, if such actions adversely affect the safety, well-being, or performance of students while in school, on school buses, at school activities or school sponsored events, or coming to and from school; if such actions threaten violence against another student or staff member; if such actions violate local, state or federal law; or if such actions disrupt the learning environment, administration, or orderly conduct of the school.

XIII. Remote Access to the Computer System. All provisions of this policy apply when accessing the Computer System remotely or on-site.

XIV. Acceptable Computer System Use Agreement. Each staff member, student and/or parent/guardian of each student shall sign the Acceptable Computer System Use Agreement before using the Computer System. The failure of any staff member or student to follow the terms of the Agreement or this Policy may result in the loss of Computer System privileges, disciplinary action, and/or appropriate legal action.

X. Review. The School Board will review and amend, if necessary, this Policy every two years.

Attendance

The importance of regular school attendance cannot be over emphasized. It is not surprising that students with good attendance achieve at much higher levels, enjoy school more and develop habits of punctuality, self-discipline, and responsibility. All of these will serve an individual well as he/she continues through school and into the world of work. Our school day begins at 8:20am. The doors open at 8am.

It is the primary and legal responsibility of parents to see that the children are regular and prompt in their school attendance. We request that any time your child must be absent from school, please call the school on the day of the absence and advise the school that your child will not be in attendance that day. The call should contain the date(s) of the absence and the cause. If your child is absent and you have not called the school to advise them of the absence, school officials will attempt to contact you by telephone to verify your knowledge and support of the absence. Virginia law requires that if a student has been absent five days during the school year without the knowledge and support of the parent, a conference will be scheduled with the parent, student and school principal so that the principal might explain the consequences of continued unexcused absence. A plan will be developed to improve attendance and if attendance improves, no further action will be necessary.

Should absences continue, the school system may proceed legally to cause the student to attend school regularly. Such action may include a request to the juvenile and domestic relations court for a petition for the student as a child in need of services or a warrant against the parent for violation of compulsory attendance laws.

1. Student Attendance Policy

Student attendance is a cooperative effort and the School Board shall involve parents and students in accepting the responsibility for good attendance.

Each parent/guardian or person having control or charge of a child within the compulsory attendance age shall be responsible for such child's regular and punctual attendance at school as required under provisions of the law; therefore, the parent/guardian or person having control or charge of a child (hereafter referred to as parent/guardian) shall make a reasonable attempt to contact the school on the day of absence.

A reasonable effort shall be made to contact a parent/guardian of each absent student every day, and to obtain an explanation for the student's absence. Where there is no indication that the student's parent/guardian is aware of and supports the absence, the absence shall be recorded as unexcused.

The Principal or designee will determine whether an absence is excused. Unexcused absences shall be handled according to regulations issued by the Superintendent.

The superintendent's regulations will include procedures for excusing students who are absent by reason of observance of a religious holiday. Such regulations will ensure that a student is not deprived of any award or of eligibility or opportunity to compete for any award, or of the right to take an alternate test or examination, which he or she missed by reason of such absence, if the absence is verified in an acceptable manner.

Students shall attend school for a full day unless otherwise excused. Secondary students shall be scheduled for a full school day unless they are enrolled in a cooperative work-study program. All other exceptions to a full day schedule must be approved on an individual basis by the Superintendent or designee.

2. Compulsory Attendance Procedures

A. Upon Fifth Absence Without Parental Awareness and Support

If (1) a student fails to report to school for a total of five (5) scheduled school days for the school year, and (2) there is no indication that the student's parent is aware of and supports the absence; and (3) reasonable efforts to notify the parent of the absences have failed, then the Principal or designee shall make a reasonable effort to ensure that direct contact is made with the parent, either in person or through telephone conversation by the Student Support Specialist to obtain an explanation for the pupil's absence and to explain to the parent the consequences of continued nonattendance. The school principal or his/her designee or Student Support Specialist, the pupil, and the pupil's parent(s) shall jointly develop a plan to resolve the pupil's nonattendance. Such plan shall include documentation of the reasons for the pupil's nonattendance.

B. Upon Sixth Absence Without Parental Awareness and Support

If the pupil is absent an additional day after direct contact with the pupil's parent(s) and the Student Support Specialist has received no indication that the pupil's parent(s) is aware of and supports the pupil's absence, the Student Support Specialist shall schedule a conference within ten (10) school days, which must take place no later than the fifteenth school day after the sixth absence. At the conference, the pupil, his/her parent(s), and school personnel, shall meet to resolve issues related to the pupil's nonattendance. Other community service providers may also be included in the conference.

C. Upon Additional Absence Without Parental Awareness and Support

Upon the next absence after the conference without indication to the Student Support Specialist that the pupil's parent(s) is aware of and supports the pupil's absence, the Principal or designee shall notify the Superintendent or designee who shall enforce the compulsory attendance rules by either or both of the following:

1. Filing a complaint with the juvenile and domestic relations court alleging the pupil is a child in need of supervision as defined in § 16.1-228; or

Boundaries Policy - GM

MAINTAINING PROFESSIONAL STAFF/STUDENT BOUNDARIES -

Winchester Public Schools ("WPS" or the "Division") provides its students with a safe and supportive learning environment and protects its students from sexual misconduct and abuse. The responsibility to protect students from sexual misconduct and abuse is shared by the Winchester Public School Board ("School Board"), Superintendent, administrators, teachers, other School Board employees, volunteers, parents, state agencies and law enforcement.

Although the Division has dedicated, professional staff members, it is important to be certain that proper boundaries between staff members and students are maintained at all times in order to ensure respect for the ethical and legal duties in the staff/student relationship and the essential duty of a staff member to serve as a role model to the student. In doing so, staff members will demonstrate a focus on job duties, a commitment to promote educational purposes, and an unconditional dedication to professionalism in conduct and interactions with students.

For the purposes of this Policy, a "staff member" is defined to include all School Board employees, including without limitation all administrators, counselors, teachers, nurses, student support specialists, support staff, coaches, employees of virtual school programs (to include but not be limited to distance learning, on line programs) and vendors providing instructional services to students, as well as all student teachers, interns, practicum students, volunteers and community members. In addition, the term "immediately" is defined as reporting a situation that may constitute a violation of this Policy, including without limitation an appearance of impropriety, within 24 hours of the first suspicion of the violation.

All staff members are to maintain a professional, moral, and ethical relationship in their conduct with students and shall serve as role models for students at all times, whether on or off School property, both during and outside of school hours. The Division encourages healthy relationships between students and staff members that promote student achievement and success. At the same time, clear and reasonable boundaries for interactions between students and staff members are necessary to protect students from sexual misconduct and abuse and to protect staff members from misunderstandings and false accusations.

All staff members have a responsibility to provide an atmosphere conducive to learning through consistent and fairly applied discipline and the maintenance of professional physical and emotional boundaries with students. These boundaries shall be maintained regardless of the student's age, the perceived consensual nature of the relationship or activity, the location of the activity, and whether the staff member directly supervises the student. For staff members whose children are students of WPS, this policy is not intended to violate or otherwise intrude upon the usual parent/child relationship.

Personal contact between students and staff members must always be professional, non-sexual, appropriate to the circumstances, and unambiguous in meaning. A boundary invasion is an act, omission, or pattern of behavior by a staff member that does not have an educational purpose and either abuses or compromises the staff/student professional relationship or has the potential to abuse or compromise the staff/student professional relationship.

Unacceptable Conduct

Examples of boundary invasions by staff members include but are not limited to the following:

- Any type of inappropriate physical contact with a student or any other conduct that might be considered harassment under Policies GBA/JFHA Prohibition Against Harassment and Retaliation.
 - Showing inappropriate images to a student, including pornography;
 - Dating a student, or discussing or planning a future romantic or sexual relationship with a student;
 - Making sexual advances toward a student;
 - A flirtatious, romantic or sexual relationship with a student;
 - Unnecessarily invading a student's personal privacy;
 - Singling out a particular student or students for personal attention and friendship beyond the professional staff/student relationship;
 - Socializing where students are consuming alcohol, drugs or tobacco;
 - Providing or offering to provide alcohol, drugs or tobacco to students;
 - For non-guidance/counseling staff, excessively encouraging students to confide their personal or family problems and/or relationships. If a student initiates such discussions, staff members are expected to use their professional judgment and refer the student to appropriate guidance/counseling staff when appropriate;
 - Sending students on personal errands unrelated to any educational, non-curricular or extracurricular purpose;
 - Banter, allusions, jokes or innuendoes of a sexual nature with students;
 - Asking a student to keep a secret;
 - Disclosing inappropriate personal, sexual, family, employment concerns, or other inappropriate private matters to one or more students;
 - Addressing students with personalized terms of endearment or pet names that would suggest the staff member feels love or affection for the student. As a staff member, permitting students to address you by your first name, nickname, with personalized terms of endearment, pet names, or otherwise in an overly familiar manner;
 - Maintaining personal contact with a student outside of school by telephone, text message, email, Instant Messenger, Internet chat rooms, social networking websites or letters (beyond homework or other legitimate school business) without the prior express permission of the student's parent/guardian;
 - Exchanging gifts cards or letters that are personal or extravagant in nature with a student (beyond customary student-teacher gifts);
 - Socializing or spending time with students outside of school related or school sponsored curricular or extracurricular activities or organized community activities (including but **not limited to** activities such as going out for beverages, meals or movies, shopping, traveling and recreational activities) and/or
 - Giving a student a ride alone in a vehicle in a non-emergency situation or a situation that can be avoided. If a staff member must give a student a ride, the student shall ride in the back seat of the vehicle when possible and staff member must attempt to gain prior permission from the parent for the transportation arrangement.

Apearances of Impropriety

The following activities are boundary invasions and can create an actual impropriety or the appearance of impropriety. Whenever possible, staff members should avoid these situations. If unavoidable, these activities must be pre-approved by the appropriate administrator. If not pre-approved, the staff member must immediately report the occurrence to the appropriate administrator.

- Conducting ongoing, private conversations with individual students that do not have an educational purpose, are unrelated to school activities or the well-being of the student, and that take place in locations inaccessible to others;
- Being alone with an individual student out of the view of others or in an inaccessible location, except for in the context of school counselors providing professional counseling support services, teachers working with students in an afterschool setting or during testing, or a school nurse providing medical services to a student;
- Driving students home or to other locations without the prior knowledge and express permission of the parent/guardian;

- Inviting or allowing individual students to visit the staff member's home without the prior knowledge and express permission of the parent/guardian;
- Inviting students for social contact off school grounds without the prior knowledge and express permission of the parent/guardian;
- Visiting a student's home in the absence of the student's parent/guardian or without the prior knowledge and express permission of the parent/guardian; and/or
- Social networking with students for non-educational purposes.

Staff members are expected to be sensitive to the appearance of impropriety in their conduct with students. Staff members are encouraged to discuss issues with the appropriate administrator whenever they are unsure whether particular conduct may constitute a violation of this Policy.

Electronic Communication

Digital technology and social networking provide multiple means for staff members to communicate appropriately with students and personalize learning. Electronic and online communications between staff members and students must be transparent, contemporaneously accessible to supervisors and parents/guardians, and professional in content and tone. Such communication must be professional, non-sexual, appropriate to the circumstances, and unambiguous in meaning. Staff members must restrict one-on-one electronic communications with individual students to accounts, systems, and platforms that are provided by and accessible to the Division or with the prior express permission of the principal or supervisor and the parent/guardian.

As with in-person communications, staff members shall avoid appearances of impropriety and refrain from inappropriate electronic communications with students. Factors that may be considered in determining whether an electronic communication is inappropriate include, but are not limited to:

- The subject, content, purpose, authorization, timing and frequency of the communication;
- Whether there was an attempt to conceal, shield or misportray the communication from supervisors and/or parents/guardians;
- Whether the communication could be reasonably interpreted as soliciting sexual contact or a romantic relationship; and
- Whether the communication contained sexual innuendo, such as for purposes of grooming the student.

Parents are encouraged to have access to their children's social networking and digital communications and to supervise their children's use of these methods of communication.

Reporting Violations

Students and their parents/guardians are strongly encouraged to notify the principal, an administrator, the lead supervisor, or division superintendent if they believe a staff member may be engaging in conduct that violates this Policy.

Staff members are required to immediately notify the principal, an administrator, the lead supervisor, or the division superintendent if they become aware of a situation that may constitute a violation of this Policy. This obligation is in addition to the statutory responsibility to report suspected abuse and neglect under Policy JHG Child Abuse Neglect and Reporting.

Anonymous complaints involving inappropriate boundary invasions by staff members with students will be investigated as if a student, parent, or staff member reported the violation.

Investigation

Investigations of allegations concerning improper staff/student relations shall follow the procedures utilized for complaints under Policies GBA/JFHA Prohibition Against Harassment and Retaliation and GBA-R1/JFHA-R1 Harassment: Complaint Procedure.

Disciplinary Action

A violation of this Policy by a staff member may result in disciplinary action up to and including dismissal. In the case of termination of employment for sexual misconduct or abuse, the Division will notify the State Superintendent of Instruction. Consistent with the Virginia Department of Education Guidelines, the Division will disclose to school divisions seeking references any formal reprimands or dismissals for violating this Policy.

Retaliation

Retaliation against students or staff members who report an improper staff/student relationship or participate in any related proceedings is prohibited. Appropriate action will be taken against students or staff members who retaliate against any student or staff member who reports alleged harassment or participates in related proceedings.

Inappropriate Behavior Initiated by a Student

In the event that a student initiates inappropriate behavior toward a staff member, the staff member must document the incident and report it to the principal, an administrator, counselor, or the lead supervisor. If appropriate, the principal, administrator, counselor, or lead supervisor will intervene and speak with the student and the student's parent/guardian about the alleged inappropriate behavior.

Training

The Division will provide its employees and volunteers with training on the prevention of sexual misconduct and abuse, including providing them with this Policy. All teachers are required to be trained during their recertification process. Contracts with virtual school programs and other vendors providing instructional services to students will include a requirement that those staff members will comply with this Policy.

Dissemination of Policy and Reporting Protocols

This Policy will be included on the Division's website and in all employee, student and volunteer handbooks.

English Learners (EL)

The Winchester Schools' English Learners (EL) program serves over 700 students in grades K-12. The program emphasizes both English language proficiency and core area academics. Students in the elementary grades receive instruction in both regular and EL classrooms. At the secondary level, both sheltered and inclusion classes are offered according to the students' level of English proficiency.

The School Board will, not later than 30 days after the beginning of the school year, inform a parent or the parents of a limited English proficient child identified for participation in, or participating in, a program for limited English proficient students of

- the reasons for the identification of their child as limited English proficient and in need of placement in a language instruction education program;
- the child's level of English proficiency, how that level was assessed, and the status of the child's academic achievement;
- the method of instruction used in the program in which their child is, or will be, participating, and the methods of instruction used in other available programs, including how such programs differ in content, instruction goals, and use of English and a native language in instruction;
- how the program in which their child is, or will be participating will meet the educational strengths and needs of the child;
- how such program will specifically help their child learn English, and meet age appropriate academic achievement standards for grade promotion and graduation;
- the specific exit requirements for such program, the expected rate of transition from such program into classrooms that are not tailored for limited English proficient children, and the expected rate of graduation from secondary school for such program;
- in the case of a child with a disability, how such program meets the objectives of the individualized education program of the child; and
- information pertaining to parental rights that includes written guidance
 - detailing the right that parents have to have their child immediately removed from such program upon their request and the options that parents have to decline to enroll their child in such program or to choose another program or method of instruction, if available, and
 - assisting parents in selecting among various programs and methods of instruction, if more than one program or method is offered by the school division.

Graduation Requirements

Four of the diploma programs that are offered to meet the goals of the individual student are the Advanced Studies Diploma, Advanced Technical Diploma, the Standard Diploma, and the Standard Technical Diploma. The Modified Standard Diploma and the Individual Education Plan Program of Studies are for students with Individual Education Plans (IEP).

VERIFIED CREDITS mean that the student passed the state required Standards of Learning (SOL) test in addition to passing the course. VERIFIED credits are earned in the following courses: English 11, US History, World History I & II, Algebra I & II, Geometry, Chemistry, Biology, and Earth Science.

(2) Pass the required subjects for the diploma program they pursue. High school credit is given for high school subjects taken in the eighth grade (i.e. Algebra 1 or the first year of a foreign language).

Gifted Program

The Winchester Public Schools EXCEL Program (emphasizing: Excellence, Creativity, "En"dividuality, and Leadership) offers a continuum of services and options which provide appropriate learning pathways for gifted students. Learning opportunities are designed to be open-ended so that they may be tailored to the talents and interests of students. The goal is to engage students in comprehensive study for which the rate of learning, the content, and high level processing skills are adjusted to provide a program commensurate with the needs of each intellectually gifted student. To ensure successful learning for all children, Winchester Public Schools affirm the need and the right of each child to appropriate and equitable educational experiences of consistently high quality.

Identification at all levels is based on multiple criteria which focus on a variety of information sources concerning potential candidates for services. Careful review of the many perspectives of each child ensures identification that draws from all segments of the population and provides a diverse gifted community in which interaction and exchange have heightened and enriched meaning. Referrals and screening of students for gifted services occur in September (students new to WPS) and Feb/March. Any of the following discrete sources may place students in the referral process for EXCEL services: referral by parent, professional school staff, community member or student. The division gifted instructional specialists may be contacted for procedures and forms.

Gifted students are identified with specific aptitudes in the academic areas of mathematics and/or English, as demonstrated by advanced skills, performance and creative expression in those areas. Students identified for gifted services at the elementary level (K-4) are cluster grouped in classes with teachers who have received specialized training in gifted education. Students receive differentiated classroom instruction, acceleration and enrichment linked to the regular curriculum and additional research opportunities. In grades 3 and 4, students may apply for admission to a center-based program, A.C.E. (Accelerated Curriculum through Enrichment), which offers an integrated model of language arts, science, and math and exposure to content and concepts beyond the general education curriculum.

Middle school students (5-8) are provided sequential differentiated instruction within the regular classroom. Services may include: acceleration (content or grade level), cluster/flexible grouping, independent study, compaction, or enrichment. Course electives and pull-out seminars are designed to challenge the ability of the highly committed gifted child and are offered several times a year to all middle school EXCEL students. Gifted middle school students are also afforded an opportunity each year to apply for admission into the summer regional Blue Ridge Environmental Governor's School.

Students in grades 9-12 are provided with subject area options and advanced placement courses. Services can include any of the following: opportunities to develop higher level thinking skills, independent study, curriculum differentiation, acceleration, compacting, enrichment activities within the student's aptitude area(s), and an opportunity for admission into the regional [Mountain Vista Governor's School](#).

Counseling Program

The Winchester School Board supports the provision of a comprehensive program of guidance and counseling services for all students.

Notice of Directory Information

The Family Education Rights and Privacy Act (FERPA), a Federal law, requires that the Winchester Public Schools, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's educational records. However, Winchester Public Schools may disclose appropriately designated "directory information" without written consent, unless you have advised us to the contrary. The primary purpose of directory information is to allow the Winchester Public Schools to include this type of information from your child's education records in certain school publications.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories-names, addresses, and telephone listings-unless parents have advised the LEA that they do not want their student's information disclosed without prior written consent.

If you do not want Winchester Public Schools to disclose directory information from your child's education records without your prior written consent, you must notify the school principal in writing at the beginning of each school year. (If you decide to restrict this information, then your child will not be included in the yearbook or any school publication.)

Winchester Public Schools has designated the following information as directory:

- Student's name
- Participation in officially recognized activities and sports
- Address
- Telephone listings
- Weight and height of members of athletic teams
- Electronic mail address
- Photograph
- Degrees, honors and awards received

Parental Responsibility and Involvement Requirements

A. Each parent of a student enrolled in a public school has a duty to assist the school in enforcing the stands of student conduct and compulsory school attendance in order that education may be conducted in an atmosphere free of disruption and threat to persons or property, and supportive of individual rights.

B. A school board shall provide opportunities for parental and community involvement in every school in the school division.

C. Within one calendar month of the opening of school, each school board shall, simultaneously with any other materials customarily distributed at that time, send to the parents of each enrolled student (i) a notice of the requirements for this section; (ii) a copy of the school board's standards of student conduct; and (iii) a copy of the compulsory school attendance law.

These materials shall include a notice to the parents that by signing the statement of receipt, parents shall not be deemed to waive, but to expressly reserve, their rights protected by the constitutions or laws of the United States or the Commonwealth and that a parent shall have the right to express disagreement with a school's or school division's policies and decisions.

Each parent of a student shall sign and return to the school in which the student is enrolled a statement acknowledging the receipt of the school board's standards of student conduct, the notice of the requirements of this section, and the compulsory school attendance law. Each school shall maintain records of such signed statements.

D. The school principal may request the student's parent or parents, if both parents have legal and physical custody of such student, to meet with the principal or his designee to review the school board's standards of student conduct and the parent's or parents' responsibility to participate with the school in disciplining the student and maintaining order, to ensure the student's compliance with compulsory school attendance law, and to discuss improvement of the child's behavior, school attendance, and educational process.

E. In accordance with the due process procedures set forth in this article and the guidelines required by § 22.1-279.6, the school principal may notify the parents of any student who violates a school board policy or the compulsory school attendance requirements when such violation could result in the student's suspension or the filing of a court petition, whether or not the school administration has imposed such disciplinary action or filed a petition. The notice shall state (i) the date and particulars of the violation; (ii) the obligation of the parent to take actions to assist the school in improving the student's behavior and ensuring compulsory school attendance compliance; (iii) that, if the student is suspended, the parent may be required to accompany the student to meet with school officials; and (iv) that a petition with the juvenile

and domestic relations court may be filed under certain circumstances to declare the student a child in need of supervision.

F. No suspended student shall be admitted to the regular school program until such student and his parent have met with school officials to discuss improvement of the student's behavior, unless the school principal or his designee determines that readmission, without parent conference, is appropriate for the student.

G. Upon the failure of a parent to comply with the provisions of this section, the school board may, by petition to the juvenile and domestic relations court , proceed against such parent for willful and unreasonable refusal to participate in efforts to improve the student's behavior or school attendance, as follows:

1. If the court finds that the parent has willfully and unreasonably failed to meet, pursuant to a request of the principal as set forth in subsection D of this section, to review the school board's standards of student and maintaining order, and to discuss improvement of the child's behavior and educational progress, it may order the parent to so meet; or

2. If the court finds that a parent has willfully and unreasonably failed to accompany a suspended student to meet with school officials pursuant to subsection F, or upon the student's receiving a second suspension or being expelled, it may order the student or his parent, or both, to participate in such programs or such treatment, including, but not limited to, extended day programs, summer school, other educational programs and counseling, as the court deems appropriate to improve the student's behavior or school attendance. The order may also require participation in a parenting, counseling or a mentoring program, as appropriate or that the student or his parent, or both, shall be subject to such conditions and limitations as the court deems appropriate for the supervision, care, and rehabilitation of the student or his parent. In addition, the court may order the parent to pay a civil penalty not to exceed \$500.

H. The civil penalties established pursuant to this section shall be enforceable in the juvenile and domestic relations court in which the student's school is located and shall be paid into a fund maintained by the appropriate local governing body to support programs or treatments designed to improve the behavior of students as described in subdivision G2. Upon the failure to pay the civil penalties imposed by this section, the attorney for the appropriate county, city, or town shall enforce the collection of such civil penalties.

I. All references in this section to the juvenile and domestic relations court shall be also deemed to mean any successor in interest of such court.

Promotion/Retention

The Winchester School Board believes in an academic program that sets “high expectations” and continuous growth for all its students. We believe that continuous academic growth and improvement are achieved through focused academic instruction. The foundation of this philosophy is based on the Instructional Goals and Objectives (IA) and Effective Schools correlate of “time.” Through focused remediation, increased length of the school day, and extended learning opportunities (e.g. summer school academy) more time for learning will be provided to meet the needs of all students as they progress toward high school graduation. Consequently there will be an increase in the number of high school graduates, number of post-secondary education graduates, and number of career certifications earned.

Teachers will confer with the parents/guardians of a child making unsatisfactory progress as soon as problems arise and will develop plans to help the child reach an acceptable level of performance. Ongoing communication should be maintained between the teacher and the parents/guardians to assure that intervention procedures are being employed to assist the child in attaining vital academic skills.

When a teacher has reason to believe that a child needs a change in his/her instructional program, the teacher will consult with the principal and additional school personnel who have worked with the child. The parents/guardians of pupils being considered will be informed of the impending program changes and/or possible retention. The final decision relative to program changes and/or possible retention is the responsibility of the building principal.

Principles

1. It is important to challenge all students to pursue a high level of performance;
2. In evaluating student achievement, each teacher shall make use of all available information, including results of teacher-made tests and other measures of skill and content mastery, writing assignments, and teacher observation of student performance;
3. For students with disabilities, attainment of the promotion benchmarks is determined after consideration of the goals, accommodations, and impact of the disability;
4. For students with a primary language other than English (ESL), attainment of the promotion benchmarks is determined after consideration of the goals and accommodations for language acquisition as defined by the ESL placement;
5. Changes in a program or possible retention of students shall be in effect only after prior notification of and explanation to the student’s parents/guardians; however, the decision shall rest with the base school principal;

6. At the time program changes and/or possible retention is considered a possibility, comments on the Report Card shall reflect the student's academic problems. The possibility of retention or placement shall be communicated to parents/guardians via the end of quarter Report Card no later than the end of the third quarter;

7. Promotion/retention requirements will be subject to an annual review of the data to be completed by the Assistant Superintendent of Instruction with the cooperation of the school principals.

Elementary and Middle School Students (Grades K-7)

Elementary and middle school students will be promoted when, in the professional judgment of the school-based instructional personnel, competency in the appropriate grade level has been demonstrated. Promotion is the assignment to the next grade level. Students will be retained only when, in the professional judgment of the school-based instructional personnel, the student has not demonstrated appropriate grade level competencies, or the action of retention would be in the best interest of the student. Retention is the reassignment to the current grade level. In all cases of promotion or retention, the parent/guardian is to be fully involved and informed throughout the promotion/retention decision making process, but the ultimate decision will be made by the professional staff.

Eighth Grade Students (Grade 8)

1. In order to be promoted to ninth grade, students will be required to pass English, math, social studies, and science. A school-based Retention Committee will consider other promotion criteria, if a student has failed one or more of these courses, and will recommend retention or promotion with interventions.

Secondary School Students (Grades 9-12)

1. Secondary assignment of students in grades 9 through 12 earning a Standard or Advanced diploma is normally based on the following schedule of accumulated credits.

Grade 9	Met requirements for 8 th - 9 th grade promotion
Grade 10	Promoted 5 credits
Grade 11	Promoted 11 credits
Grade 12	Promoted 17 credits

2. Upon the Superintendent's recommendation and subject to School Board approval, credit may be awarded for courses having less than one hundred forty (140) hours per course upon demonstration of mastery of the course content and objectives. Having received credit for the course, the student will be permitted to sit for the relevant Standards of Learning assessment and, upon receiving a passing score, will earn a verified credit. (§ 8 VAC 20-131-110B).

Transportation

Winchester Public Schools provides dependable and safe transportation to and from school daily for students. Buses are equipped with video cameras to address safety concerns. Bus routes, stops and times of departures will be available from your child's school in August prior to the start of school and will be available on the school system web site (www.wps.k12.va.us) by mid-August. Students should be at their stop five minutes prior to the morning departure time. We request parents of kindergarten students be at their stop five minutes prior to the afternoon arrival time.

Safe transportation to and from school is dependent upon children conducting themselves properly on the bus. Students are expected to follow the directions listed below:

- Listen to the drivers at all times
- Remain seated while the bus is in motion
- Speak only at conversational levels
- Keep arms, legs and heads in the bus at all times
- Do not use vulgar language
- Be respectful to drivers or classmates
- Students must not engage in any type of roughhousing, fighting or any behavior that may distract the driver and create a safety hazard
- Students may have in their possession a beeper, cellular telephone, personal digital assistant (PDA) or other communications device on school buses, provided that the device must remain off and out of sight unless the bus driver is notified of a declared emergency by school officials
- Do not deface or damage the bus. Violators will be assessed repair costs and will be subject to disciplinary action

Students who violate these rules lose their privilege to ride the bus.

Visiting Our Schools

We encourage you as a parent to visit your child's school as often as possible. However, in today's world, building safety and security must be a strong component of keeping our children safe at school. All visitors are asked to enter a school through the designated entrance, go directly to the office (show identification), register as being in the building and receive a visitor's badge. Upon completion of the visit, please return the badge to the office and sign out.

Visitando Nuestras Escuelas

Animamos a los padres de familia a que visiten la escuela de su estudiante tan frecuentemente como le sea posible. Sin embargo, en el mundo de hoy, la protección en el edificio y seguridad deben ser un componente importante para mantener seguros a nuestros estudiantes en la escuela. Les pedimos a todas las visitas que entren por la entrada designada, pasen directamente a la oficina, se registren y reciban una identificación de visita. Al terminar su visita, favor de devolver la identificación en la oficina y firme la salida.

Asistencia Escolar

La importancia de la asistencia regular nunca puede ser sobre enfatizada. No es una sorpresa que los estudiantes con buena asistencia logren niveles mucho más altos, disfruten más de la escuela, y desarrollen hábitos de puntualidad, autodisciplina, y responsabilidad. Todos estos hábitos le servirán al individuo mientras está en la escuela y entra al mundo laboral.

Es la responsabilidad primaria y legal de los padres de familia asegurarse que sus hijos asisten a la escuela regular y puntualmente. Nosotros solicitamos a los padres que cualquier momento que su estudiante debe ausentarse de la escuela

que usted llame a la escuela el día de la ausencia e informe que su estudiante no asistirá ese día. La llamada debe contener la fecha y el motivo de la ausencia.

Si su estudiante está ausente y usted no ha llamado a la escuela para avisar de la ausencia, los oficiales de la escuela intentarán contactarse con usted por teléfono para verificar su conocimiento y apoyo de la ausencia.

La ley de Virginia requiere que en el caso que un estudiante haya estado ausente cinco días durante el año escolar sin el conocimiento y apoyo de los padres, que una reunión sea programada con los padres, el estudiante, y el director o la persona asignada de la escuela para que pueda explicarles las consecuencias de ausencias adicionales sin excusa. Se elaborará un plan para mejorar la asistencia y si es que mejora, no será necesaria ninguna otra acción a futuro.

Si las ausencias continúan, el sistema escolar puede proceder legalmente para hacer que el estudiante asista regularmente a la escuela. Tal acción puede incluir un pedido a la Corte de Relaciones Domésticas y Juveniles, dé una petición para el estudiante como un menor en necesidad de servicios, o una orden en contra de los padres de familia por violar las leyes de educación obligatoria.

1. Pólizas de Asistencia Estudiantil

La asistencia estudiantil es un esfuerzo cooperativo y la Junta Directiva Escolar involucrará a los padres y los estudiantes para que acepten la responsabilidad por la buena asistencia.

Cada padre, madre, apoderado legal o persona encargada o en control de un niño en la edad de asistencia obligatoria será responsable por la asistencia regular y puntual de dicho niño a la escuela de acuerdo a los requisitos provistos por la ley; por tanto, el padre, la madre, el apoderado legal o persona encargada, o en control de un niño (de aquí en adelante referido como padre/apoderado legal) deberá hacer un intento razonable de contactarse con la escuela el día de la ausencia.

Se hará un esfuerzo razonable de contactar diariamente al padre/apoderado legal de cada estudiante ausente, para obtener una explicación por la ausencia del estudiante. En caso que no haya indicación que el padre/apoderado legal del estudiante está enterado y apoya la ausencia, esta será registrada como una ausencia sin excusa.

El director o su designado determinarán si una ausencia tiene excusa o no. Las ausencias sin excusa se tratarán de acuerdo a los reglamentos dados por el Superintendente.

Las regulaciones del superintendente incluirán procedimientos para excusar a los estudiantes que estén ausentes por causa de la observación de alguna fiesta religiosa. Tales regulaciones aseguran que un estudiante no será privado de algún premio o, elegibilidad u oportunidad para competir por algún premio, o el derecho de tomar un examen alternativo que ha perdido por causa de tal ausencia, si la ausencia es verificada de una forma aceptable.

Los estudiantes deben asistir a la escuela el día entero de clases a menos que tengan una excusa. Los estudiantes de la escuela secundaria deben tener un programa de estudios de un día entero a menos que estén matriculados en un programa cooperativo de trabajo y estudio. Cualquier otra excepción debe estar aprobada individualmente por el Superintendente o su designado.

2. Procedimientos Obligatorios de Asistencia

A. Sobre la Quinta ausencia sin el conocimiento ni el apoyo por parte de los padres

Si (1) un estudiante falta a la escuela por un total de cinco (5) días de clases planificadas durante el año escolar, y (2) no hay indicios de que los padres del estudiante conocen y apoyan estas ausencias; y (3) han fallado los esfuerzos razonables de notificar a los padres de estas ausencias, entonces el Director o persona designada hará un esfuerzo razonable para asegurar que se haga un contacto directo con los padres, ya sea en persona o a través de una conversación telefónica con el Especialista de Apoyo Estudiantil para obtener una explicación sobre la ausencia del estudiante y para explicarle a los padres las consecuencias de las ausencias continuas. El director de la escuela, su designado o el Especialista de Apoyo

Estudiantil I, el estudiante y los padres del estudiante desarrollarán conjuntamente un plan para resolver la ausencia del estudiante. Este plan incluirá documentación con los motivos de la ausencia del estudiante.

B. Sobre la sexta ausencia sin el conocimiento ni el apoyo por parte de los padres

Si el estudiante está ausente un día adicional luego del contacto directo con los padres del estudiante y, el Especialista de Apoyo Estudiantil no ha recibido ninguna indicación de que los padres del estudiante tienen conocimiento de la ausencia del estudiante, el Especialista de Apoyo Estudiantil convocará una conferencia dentro de los siguientes diez (10) días que se llevará a cabo a más tardar el decimoquinto (15.^o) día de clases después de la sexta ausencia. En esta conferencia, el estudiante, sus padres y el personal escolar se reunirán para resolver los asuntos relacionados con la ausencia del estudiante. También se podrían incluir en esta conferencia a otros proveedores de servicios comunitarios.

C. Sobre ausencias adicionales sin el conocimiento ni el apoyo de los padres

Luego de una ausencia después de la conferencia sin ninguna indicación al Especialista de Apoyo Estudiantil de que los padres del estudiante tienen conocimiento y apoyan la ausencia del estudiante, el Director o persona designada deberá notificar al Superintendente o persona designada quien impondrá las reglas obligatorias de asistencia por uno o ambos de los siguientes puntos:

1. Completar una queja en la corte de relaciones juveniles y domésticas alegando que el estudiante es un niño en necesidad de supervisión como es definida en § 16.1-228; o
2. Instituir procedimientos en contra de los padres de acuerdo a § 18.2-371 o § 22.1262.

Al completar una queja en contra del estudiante, el Especialista de Apoyo Estudiantil proveerá documentación escrita sobre los esfuerzos que ya se han realizado para resolver las ausencias del estudiante. Si los padres/representantes legales del estudiante tienen custodia física conjunta del estudiante y la escuela conoce sobre este acuerdo de custodia, ambos padres/representantes legales deberán ser notificados a su última dirección conocida.

D. Cooperación parental para remediar ausencias excesivas

Se espera que los padres/representantes legales cooperen con los oficiales de la escuela para remediar el problema de asistencia del estudiante. Cuando no se pueda establecer contacto directo con los padres, a pesar de los esfuerzos razonables, el Superintendente o persona designada puede buscar conformidad inmediata con las leyes obligatorias de asistencia a la escuela (§§ 22.1-254 o 22.1-258). La persona designada, con conocimiento y aprobación del Superintendente, instituirá actos contra cualquier parent que no acate los requerimientos de las leyes obligatorias de asistencia. Cuando la queja va más allá de la falla de los padres de cumplir con los requerimientos de, § 22.1-258, el Oficial de Asistencia deberá documentar la queja de la división escolar con esta sección de código.

3. Reporte para la suspensión de la Licencia de Conducir

Además de cualquier otra acción tomada referente a esta póliza, si un estudiante menor de 18 años tiene más de 10 días consecutivos de ausencias sin excusa a la escuela, el director podría notificar a la corte de relaciones juveniles y domésticas, quién podría tomar la acción de suspender la licencia de conducir del estudiante.

4. Reporte de Asistencia

La asistencia de los estudiantes será monitoreada y reportada como es requerido por las regulaciones y las leyes estatales. Al final de cada año escolar, los directores de cada una de las escuelas públicas deberán reportarle al Superintendente el número de estudiantes por nivel de grado a quienes se les haya programado una conferencia de acuerdo a la Parte 2 (B) mencionada anteriormente. El Superintendente deberá recopilar esta información y entregársela anualmente al Director de Instrucción.

5. Precauciones de Salida de la Escuela

Los directores no deben dejar salir de la escuela a ningún estudiante durante el día escolar a cualquier persona, para asumir responsabilidad sobre el estudiante, sin la autorización de los padres/representantes legales. Los estudiantes solamente pueden salir de la escuela por expreso deseo y autorización de los padres/representantes legales. El Superintendente deberá proveer procedimientos para salida de los estudiantes que no vivan con o bajo la supervisión de

un parent/guardián legal. La carga de la prueba de la autoridad de la persona que recibe al estudiante recae sobre la parte solicitante. Cada escuela mantendrá un sistema formal para las salidas.

Las Ausencias Con y Sin Excusa

1. Las ausencias de la escuela se registran como con o sin excusa. Las siguientes son ausencias con excusa:
 - a. Ausencias debidas a enfermedad.
 - b. Ausencias aprobadas por un médico o la enfermera escolar.
 - c. Ausencias debidas a días religiosos festivos.
 - d. Ausencias debidas a la muerte de un miembro inmediato de la familia.
 - e. Ausencias (arregladas por adelantado) por otros motivos, que sean aprobadas por el director o su designado.
2. Cualquier otra ausencia es considerada sin excusa a menos que se determine que hay circunstancias atenuantes.
3. Los estudiantes que están participando en un viaje escolar o una actividad escolar que se lleva a cabo fuera del campus y es propiamente aprobada por la administración escolar será contado como presente.

Llegadas tardes

Un estudiante de la escuela primaria se considerará tarde de asistencia si llega a la escuela después de la hora designada. Los siguientes procedimientos aplican para las escuelas primarias:

La campana de llegada tarde sonará a las 7:50 a.m. Si un estudiante llega a la escuela tarde, un parent/guardián legal debe acompañar a dicho estudiante a la oficina para firmar.

1. Las llegadas tardes pueden ser referidas a un administrador para acción disciplinaria.
2. Si un estudiante está en otra zona escolar, esta otra zona escolar puede ser revocada debido a las llegadas tardes o ausencias excesivas.
3. Si un estudiante se ha mudado fuera de la ciudad durante un semestre escolar, el estudiante puede continuar asistiendo sin pago de tuición hasta el fin del semestre. En el evento de llegadas tardes o ausencias excesivas y/o asuntos de disciplina, la administración puede re-evaluar este privilegio, y lo hará caso por caso.

Absentismo

Un estudiante será considerado ausente cuando no haya indicación de que los padres/guardián legal de los estudiantes tienen conocimiento y apoyan la ausencia. Esta ausencia será registrada como ausencia sin excusa.

Respuesta Administrativa al Absentismo Crónico

El director de la escuela o persona designada es el responsable de revisar los registros de asistencia e identificar a los estudiantes que tienen problemas de absentismo crónico debido a inasistencias excesivas y/o llegadas tarde.

Póliza de límites - GM

MANTENIMIENTO DE LOS LÍMITES DEL PERSONAL PROFESIONAL/LÍMITES DEL ESTUDIANTES

Las Escuelas Públicas de Winchester ("WPS" o la "División") proveen a sus estudiantes un ambiente de aprendizaje seguro, de apoyo y protegen a sus estudiantes de la mala conducta sexual y el abuso. La Junta Directiva Escolar de Winchester ("Junta Directiva Escolar"), el Superintendente, los administradores, los maestros, otros empleados de la Junta Directiva Escolar, los voluntarios, los padres, las agencias estatales y las fuerzas del orden público comparten la responsabilidad de proteger a los estudiantes de la mala conducta sexual y el abuso.

Aunque la División cuenta con personal dedicado y profesional, es importante estar seguro que los límites entre el personal y los estudiantes se mantienen en todo momento, para asegurar el respeto de los deberes éticos y legales en la relación entre el personal y el estudiante. Asegurar también el deber esencial de los miembros del personal para servir como modelo para el estudiante. Al hacerlo, los miembros del personal demostrarán un enfoque en los deberes laborales, un compromiso para promover propósitos educativos y una dedicación incondicional al profesionalismo en la conducta y las interacciones con los estudiantes.

Para los propósitos de esta Póliza, se define un "miembro del personal" para incluir a todos los empleados de la Junta Directiva Escolar, incluyendo sin limitación a todos los administradores, consejeros, maestros, enfermeras, especialistas en apoyo estudiantil, personal de apoyo, entrenadores, empleados de programas escolares virtuales y proveedores que ofrecen servicios de instrucción a los estudiantes, así como a todos los estudiantes maestros, asistentes, estudiantes de prácticas, voluntarios y miembros de la comunidad. Además, el término "inmediatamente" se usará al momento de reportar una situación que puede constituir una violación de esta Póliza, incluyendo sin limitación una apariencia de impropiedad, dentro de las primeras 24 horas de sospecha de la violación.

Todos los miembros del personal deben mantener una relación profesional, moral y ética en su conducta con los estudiantes y servirán como modelos para los estudiantes en todo momento. Dentro y fuera de la propiedad escolar, en horas escolares o no. La División fomenta relaciones saludables entre estudiantes y miembros del personal que promueven su éxito y el de los estudiantes. Al mismo tiempo, son necesarios límites claros y razonables para las interacciones entre los estudiantes y los miembros del personal para proteger a los estudiantes de la mala conducta sexual, el abuso y para proteger a los miembros del personal de malentendidos y falsas acusaciones.

Todos los miembros del personal tienen la responsabilidad de proporcionar un ambiente propicio para el aprendizaje mediante una disciplina consistente y bastante aplicada. Deberán mantener los límites profesionales físicos emocionales

con los estudiantes. Estos límites se mantendrán sin importar la edad del estudiante, la naturaleza consensual percibida de la relación o actividad, la ubicación de la actividad o si el miembro del personal supervisa directamente al estudiante. Para los miembros del personal cuyos hijos son estudiantes de WPS, esta póliza no tiene la intención de violar o interferir en la relación habitual entre padre/hijo.

El contacto personal entre los estudiantes y los miembros del personal debe ser siempre profesional, no sexual, apropiado a las circunstancias y sin ambigüedad en su significado. Una invasión de los límites es un acto, una omisión o un patrón de conducta por parte de un miembro del personal que no tiene un propósito educativo, abusa o compromete la relación profesional entre el personal y el estudiante.

Conducta inaceptable

Ejemplos de invasiones de límites por miembros del personal incluyen pero no están limitadas a:

- Cualquier tipo de contacto físico inapropiado con un estudiante o cualquier otra conducta que pueda considerarse acoso bajo las Pólizas GBA / JFHA Prohibición contra Acoso y Represalias;
- Mostrando imágenes inapropiadas a un estudiante, incluyendo pornografía;
- Saliendo con un estudiante, discutiendo o planeando una futura relación romántica o sexual con un estudiante;
- Hacer avances sexuales hacia un estudiante;
- Una relación coqueta, romántica o sexual con un estudiante
- Invadir la privacidad personal de un estudiante;
- Distinguir a un estudiante en particular o a los estudiantes para una atención y amistad personal más allá de la relación profesional/estudiante;
- Socializar donde los estudiantes consumen alcohol, drogas o tabaco;
- Ofrecerse para proporcionar alcohol, drogas o tabaco a los estudiantes;

Promoción/Retención

La Junta Directiva Escolar de Winchester cree en un programa académico que establezca "altas expectativas" y el crecimiento continuo de todos sus estudiantes. Creemos que el crecimiento académico y la mejora continua se logran a través de la instrucción académica enfocada. El fundamento de esta filosofía se basa la correlación entre las Metas y Objetivos de Instrucción (IA) y las escuelas eficaces de "tiempo". A través de remediación enfocada, el aumento de la duración de la jornada escolar y las oportunidades de aprendizaje extendido (por ejemplo academia de la escuela de verano) más tiempo para el aprendizaje será proporcionado para satisfacer las necesidades de todos los estudiantes a

medida que avanza hacia la graduación de la escuela secundaria. En consecuencia, habrá un aumento en el número de graduados de escuela secundaria, el número de graduados de educación postsecundaria, y el número de certificaciones de carreras ganadas

Los maestros tendrán conferencias con los padres/representantes legales de un niño que no esté haciendo progresos satisfactorios en cuanto surjan los problemas y desarrollarán planes para ayudar al niño a alcanzar un nivel aceptable de rendimiento. La comunicación continua debe mantenerse entre el maestro y los padres/representantes legales para asegurarse de que se están empleando procedimientos de intervención para ayudar al niño en la consecución de las habilidades académicas vitales.

Cuando un maestro tiene razones para creer que un niño necesita un cambio en su programa de instrucción, el maestro consultará con el director y el personal escolar adicional que ha trabajado con el niño. Los padres/representantes legales de los estudiantes que se están considerando serán informados de los cambios inminentes en el programa y/o en la posible retención. La decisión final en relación a los cambios de programa y/o a la posible retención es la responsabilidad del director de la escuela.

Principios

1. Es importante desafiar a todos los estudiantes a perseguir un alto nivel de rendimiento;
2. En la evaluación de los logros del estudiante, cada maestro deberá hacer uso de toda la información disponible, incluyendo los resultados de las pruebas hechas por los maestros y otras medidas de la habilidad y el dominio del contenido, las tareas de escritura y la observación del maestro del rendimiento de los estudiantes;
3. Para los estudiantes con discapacidades, la consecución de los puntos de referencia de promoción se determina después de la consideración de los objetivos, el alojamiento y el impacto de la discapacidad;
4. Para los estudiantes con una lengua materna diferente al Inglés (EL), la consecución de los puntos de referencia de promoción se determina después de considerar las metas y acomodaciones para la adquisición del lenguaje tal como se definen en la colocación en el programa EL;
5. Los cambios en un programa o una posible retención de los estudiantes deberán estar en vigor sólo después de la notificación previa y explicación a los padres/representantes legales del estudiante; sin embargo, la decisión recaerá en el director de la escuela de base;
6. Al momento de los cambios de un programa y/o la posible retención se considera una posibilidad, los comentarios sobre el estudiante en la Boleta de Calificaciones deberá reflejar los problemas académicos del estudiante. La posibilidad de retención o colocación deberá ser comunicada a los padres/representantes legales camino a más tardar al final del tercer trimestre;
7. Los requisitos de promoción/retención serán objeto de una revisión anual de los datos a ser completada por el Asistente del Superintendente de Instrucción con la cooperación de los directores de las escuelas.

Estudiantes de primaria y escuela intermedia (grados K-7)

Los estudiantes de primaria y de escuela intermedia serán promovidos cuando, según el criterio profesional del personal de instrucción en las escuelas, la competencia en el nivel de grado apropiado ha sido demostrada. La promoción es la asignación al siguiente grado. Los estudiantes serán retenidos sólo cuando, según el criterio profesional del personal de instrucción basados en la escuela, el estudiante no ha demostrado competencias de nivel de grado apropiado y la acción de retención sería en el mejor interés del estudiante. La retención es la reasignación al nivel de grado actual. En todos los casos de promoción o retención, el padres/representantes legales debe estar completamente informado y participar en

todo el proceso de toma de decisión de promoción / retención, pero la decisión final será tomada por el personal profesional.

Estudiantes de la escuela intermedia (8.^o grado)

1. Con el fin de ser promovidos al 9.^o grado, los estudiantes tendrán que aprobar inglés, matemáticas, estudios sociales y ciencias. El comité de retención de la escuela tendrá en cuenta otros criterios de promoción, si un estudiante ha fallado uno o más de estos cursos y recomendará la retención o la promoción del estudiante.

Estudiantes de la escuela secundaria (grados 9 – 12)

1. La asignación en la secundaria de los estudiantes en los grados 9 a 12 para obtener un diploma estándar o avanzado, se basa normalmente en el siguiente calendario de créditos acumulados.

9.^o Grado alcanzar los requisitos de promoción de los grados 8 y 9

10.^o Grado promovido con 5 créditos

11.^o Grado promovido con 11 créditos

12.^o Grado promovido con 17 créditos

2. Por recomendación y, sujeto a la aprobación de la Junta Directiva Escolar, el crédito puede concederse para los cursos que tienen menos de ciento cuarenta (140) horas por curso si se demuestra el dominio de los contenidos y de los objetivos del curso. Habiendo obtenido el crédito en el curso, el estudiante podrá tomar el examen de Estándares de Aprendizaje (SOL), y, al recibir una calificación aprobatoria, ganará un crédito verificado. (§ 8 VAC 20-131-110B).

Curriculum

Intermediate school students are introduced to the rigors of academic instruction while still being supported in their learning. They have four core, scheduled classes that include English, math, science, and social studies. The schedule provides extended time in language arts and math in order to provide the opportunity for acceleration in math, enrichment in language arts, and remediation as needed. A variety of elective classes are offered to all students to allow for exploration of interests during the intermediate school years. A placement test and other achievement data will be utilized to determine advanced math placement as requested by parent and teacher recommendation. English as a second language and special education classes are offered to eligible identified students. Further information on these programs is obtained by contacting the guidance department.

Drinks and Snacks

Water is allowed in the classroom in water bottles. Teacher approved snacks will be considered with teacher permission. Due to allergy concerns, no outside food should be brought to lunch by outside establishments or to class without permission from the teacher or school administration.

Enrichment Activities

Daniel Morgan students are offered many opportunities to apply their academic skills beyond the classroom. For example, our students participate in activities such as Student Government, Spelling Bee, in-house forensic competition, Virginia Math League competition, Noetic Math, Spring Arts Fair, as well as many other curriculum related activities and contests.

Field Trips

There are no field trips this year due to Covid-19.** Generally, students may have an opportunity to participate in a school-sponsored field trip to reinforce instruction. While on a field trip, students will be under the supervision of school personnel and all school rules and regulations will apply. Parents will be advised of any field trip prior to its occurrence.

If parents or guardians want their child to participate in field trips under these conditions, they must check the “yes” blank on the PARENT PERMISSION FORM FOR STUDENT INVOLVEMENT; if not, they must check the ‘no’ blank. If parents have given consent for field trip participation, but there is a particular field trip planned that they do not want their child to participate in, they may notify the school principal or the child’s teacher in writing to excuse the child from participation. No child will be penalized for not participating in a field trip.

Homework

At DMIS we believe homework is very important. Homework reinforces what has been learned in class and prepares students for upcoming lessons. Students should read every night.

Homework must be completed on time. Students absent two (2) or more days will be supplied with homework and books upon parent request. Please call the office before noon if you plan to pick up homework at the end of the school day. If a student is absent they will be given an appropriate amount of time to make up the work they missed.

Intervention

It is the goal of Daniel Morgan Intermediate School to prevent academic deficiencies through analysis of student data, early intervention, and “extra” academic time throughout the school day.

As part of a state-wide remediation plan entitled, Response to Intervention (RtI), supplemental academic instruction will be provided at intervals throughout the year for students who are having challenges meeting benchmark levels in the areas of reading and math. Based on student weaknesses through data analysis, Response to Intervention teachers will provide specific skill instruction through small groups, or one-on-one scenarios, during elective times.

Parent-Teacher Conferences

Two formal parent-teacher conference sessions are scheduled each school year, one per semester. In addition, teachers initiate conferences on an as-needed basis throughout the academic year. Parents are highly encouraged to contact the teachers.

Progress Reports/Report Cards

Progress reports are issued throughout the year at approximately four and a half week intervals. Grades are given to indicate academic achievement. Work habits and study skills, as well as conduct and citizenship, are evaluated in the Comment Code Section. Progress reports will be sent home with the students. Parents are required to sign reports and to return them to school by their child the following day. Report cards will be mailed to parents.

GUIDANCE AND COUNSELING SERVICES

The Winchester School Board supports the provision of a comprehensive program of guidance and counseling services for all students.

Three types of counseling are offered:

1. Academic Guidance – Guidance which assists students and their parents to acquire knowledge of the curricula choices available to students, to plan a program of studies, to arrange and interpret academic testing, and to seek post-secondary academic opportunities;
2. Career Guidance – Guidance which helps students to acquire information and plan action about work, jobs, apprenticeships, and post-secondary educational and career opportunities;
3. Personal/Social Counseling – Counseling which assists a student to develop an understanding of themselves, the rights and needs of others, how to resolve conflict and to define individual goals, reflecting their interests, abilities and aptitudes. Such counseling may be provided either in groups in which generic issues of social development are addressed or through structured individual or small group multi-session counseling which focuses on the specific concerns of the participants. Counselors provide referral services for outside agencies.

Winchester Public Schools strongly encourages student participation in offered counseling services. Parents, however, reserve the right to opt-out of the counseling program. If a parent does not wish his/her child to participate in any part of the counseling program, the parent or guardian should contact the assigned counselor.

INTRAMURALS

An after-school intramural program is offered to students in grades 5 – 6. The program is scheduled 3:20 – 4:20 pm Monday through Thursday and transportation is provided by the school system. Activities are selected and offered based on student input and desire.

*Due to Covid-19, there are no intramurals.

LIBRARY MEDIA CENTER

The Daniel Morgan Library Media Center (LMC) is open to students from 8:00 a.m. to 3:20 p.m. Students may check out two items at a time for a two week period. If an item checked out by a student is lost or damaged, replacement fees are assessed. While students have the primary responsibility for the item, parents/guardians are responsible for any fees incurred by their child. All CDC guidelines are being followed.

. Students are strongly encouraged to use the LMC materials for pleasure reading, as well as for school assignments.

LOCKERS

Individual hall lockers are assigned to all intermediate school students during the first few days of school. These operate with combination locks. It is very important that students learn their combinations and share those combinations with no one. Sharing lockers is prohibited. Any item brought to school is the responsibility of that student. To further insure their possessions, students should label in permanent ink all clothing and materials which are brought to school; this is especially true for gym clothes, shoes, jackets, and any other items which are not worn all day. Remember, the principal and assistant principals have the right to search for and seize any illegal items found in locker and book bags. No student may go to a locker during classes without a pass from a teacher or school official. Book bags, coats and purses are not allowed in the classrooms. They are to be placed in the lockers at the beginning of the school day and may be taken home at the end of the school day.

MEDICAL CONCERNs

Daniel Morgan Intermediate School has one full-time nurse who treats minor illnesses and injuries that occur at school. The vision and hearing of students are checked. When students are in 7th grade, or are a new student, they will be screened for scoliosis. The nurse may contact parents if physical or health problems of students surface. The nurse should be contacted directly if a student has special medical needs.

A student, with permission of a teacher, shall report to the clinic for illness or following an accident. If warranted, the nurse, or a designee will contact the parent. Students should NOT contact the parent directly. Students leaving school because of illness or injury are to be accompanied by a parent or have transportation authorized by the parent.

Any excuses for missing physical education classes must be approved by the nurse before school that day. The excuse may be good for a maximum of two days, unless there is a physician's note specifying a longer period of exclusion. The nurse will notify the physical education department of the exclusion and the expected return date to activities.

Any medication (prescription, and over-the-counter) that a student needs to take must be kept in the nurse's office. A pass from a teacher will allow the student to go to the nurse to take the medication. Failure to leave medication with the school nurse will result in a consequence as dictated by the WPS Drug Policy.

The school nurse or designee may administer medications during school hours provided the following conditions are met:

- Prescription medications must be brought to school by the parent, be in the original container, and have a medication form completed by the doctor. The carrying of a prescribed inhaler must also have a medication form completed by the doctor. These forms are available in most doctors' offices or through the school nurse.
- The School Board has approved an over-the-counter medication form that allows the nurse or designee to keep and dispense over the counter medications. These forms are distributed in the packets sent home at the beginning of each school year.
- Discontinued or unused medications must be picked up by parent/guardian by the end of each school year. If not claimed by parent/guardian, the nurse will destroy the medication.

The SRO program is designed to develop more positive and effective communication among youth, school staff, and the police; to develop positive conflict resolution skills among students; to promote and facilitate a safe school environment; to teach the concepts of the criminal justice system, objectives of law enforcement, and citizen responsibility for public and individual safety; and to develop a positive liaison with courts, social services, and other community groups. The School Resource Officer plays many roles to include the support and guidance in the establishment of proper safety practices to the development and instruction of various educational programs.

SOCIAL EVENTS

Social events, chaperoned by teachers and parents, are sponsored throughout the school year by the various student clubs and organizations. All students are invited to attend each event with the exception of the following circumstances: absences from school on the day of the event, any discipline that has not been completed or social probation is in effect. Students must be picked up within 15 minutes of the close of any school-sponsored event or forfeit the opportunity to attend the next social event. Events are open only to intermediate school students. All parents are welcome!

To acknowledge expected behavior and good academic standing, functions such as Quarterly Celebrations are held near the end of each quarter during the regular school day. All students in good academic and behavioral standing would be invited to attend each Quarterly Celebration. Students who are absent from school on the day of the event, in poor academic, have any discipline that has not been completed, or for whom social probation is in effect will be unable to attend Quarterly Celebrations and will have an alternative activity during the event.

Social probation includes, but is not limited to, excessive behavioral infractions and poor academic standing to include missing or incomplete assignments.

It is the responsibility of each representative to attend all business meetings and to report this information back to homebase.

DANIEL MORGAN INTERMEDIATE SCHOOL STANDARDS OF STUDENT CONDUCT

SECTION 1 – RIGHTS AND RESPONSIBILITIES

Rights and responsibilities go hand in hand. Citizens of the United States have the right to equal protection under the law, and they have the responsibility to obey the laws of our nation, states, and municipalities.

In the schools of Virginia, students have certain basic rights and responsibilities just as other citizens do. Since school authorities are responsible for the students' safety and welfare from the time they board the school bus or arrive at school until they return home, the

Winchester City Schools Board of Education has authority to enact reasonable rules and regulations for the students' safety and welfare. It is the student's responsibility to obey school rules and regulations and to cooperate with school officials in the enforcement of these rules and regulations.

School officials have the right to adopt rules and regulations for the purpose of maintaining order and discipline and for creating a favorable learning environment. Failure to obey and comply with reasonable school rules and regulations will result in disciplinary action.

PROCEDURAL DUE PROCESS IS ALWAYS GIVEN TO THE STUDENT. No suspension is started by a student without explanation to the parent or legal guardian, nor without parental notification of the appeal procedure. The only exception to this is when the administrator believes there is a danger to others in the school if immediate action is not taken. Notification will be by telephone call or home visit, as well as by mailed letter.

Any student, who is suspended or assigned detention for any infraction of school rules, regulations, or Board of Education policies, as well as a parent or person *in loco parentis*, may appeal the disciplinary action to the principal, assistant principal, or the District Superintendent of Winchester City Schools.

Title IV of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color, creed, religion, disabilities, or national origin in its educational programs and activities. Title IX of the Educational Amendments of 1972 prohibits the discrimination on the basis of sex.

DUE PROCESS

The following shall constitute the minimum due process procedures to be followed in the discipline of a student:

1. The student shall be apprised of the nature and facts of the alleged misconduct.
2. The student shall be given an opportunity to explain the circumstances of the alleged misconduct.
3. The student shall be informed of the conditions of the disciplinary action.
4. A parent/guardian may appeal a suspension decision to the Principal within 24 hours after suspension/restriction notification. The Principal's decision may be appealed to the Superintendent of Schools or his designee in writing within two (2) working days.
5. A parent or guardian or a student who has been recommended for expulsion has the right to a hearing before the Superintendent or designee. Such hearing shall be held within a reasonable period of time. The hearing may include the student, parents and school officials. The hearing will determine the facts in the case and whether further action by the Discipline Committee of the School Board is warranted. Parents may appeal the results of the hearing officer to the Superintendent. The regulations provide for subsequent confirmation or disapproval of the proposed expulsion by the School Board regardless of whether or not the pupil has exercised the right to a hearing.

1. To respect the authority of teachers, principals, and other school staff to enforce division policy and school rules regarding student discipline and conduct.
2. To abide by the standards of conduct and rules governing discipline established by the school.

3. To know and understand the rules your child is expected to observe at school; to be aware of the consequences for violations of these rules and accept responsibility for your child's actions. Parents are required by law to sign an Acknowledgement of Parental Responsibility for Proper Student Conduct.

5. To seek out, when necessary, appropriate community agencies for assistance in correcting behavior problems of your child.

4. To demonstrate, by word and personal example, respect for law and self-discipline and to exhibit genuine concern for all persons coming under your authority.
5. To become familiar with your students and their concerns by visiting classrooms and attending school activities.

1.5 Extent of School Authority:

When student behaviors away from school property and outside school hours may affect the school environment, the school administration may extend disciplinary action for circumstances that include but are not limited to those that constitute a danger to the safety or welfare of students and staff, a disruption of orderly school operations, or other detriment to the interests of the school. In considering discipline for off-campus misconduct, the following factors will be considered:

1. The time and location of the misconduct;
2. The nature and severity of the misconduct;
3. The specific school interests that can be identified as having been or potentially being impacted by the misconduct;
4. Any school affiliation of other persons present at the time of the misconduct;
5. Whether prior notice has been given to students in general or to particular groups of students regarding off-campus.

Daniel Morgan Intermediate School cannot reasonably write a code of conduct in such detail as to anticipate every type of misconduct that could possibly occur. The administration has the authority to discipline unacceptable conduct not specifically covered by this code. All Virginia School Laws and Code of Virginia Laws will apply.

Generals Rise to the Challenge

Daniel Morgan Cell Phone Policy

Dear Parent or Guardian of Daniel Morgan Intermediate Students:

Daniel Morgan campus will be implementing a cell phone policy. The new cell phone policy is the result of the review of disciplinary data and discussions with faculty and staff. Unfortunately, students do not always use them for appropriate purposes. Although, cell phones can be used for instructional purposes and are convenient for making contact after school, we are finding that many students misuse them during instructional time. My review of the discipline data suggests they are often used as a personal distraction during learning, used for the inappropriate exchange of information, and in some cases for cyberbullying. Part of our Positive Behavior Intervention and Supports (PBIS) program implementation is emphasizing to the staff the importance of teaching students appropriate behaviors. This year our teachers will teach students the safe and appropriate use of cell phone technology in a school setting. Additionally, we will explain to students the consequences when they choose not to meet our expectations. Parents are encouraged to utilize the school's phone line to relay any messages that may be urgent in nature to their child. If a student has an urgent message for their parent, we will accommodate that as well. After school, students will be able to use their cell phone to make contact with you.

We want to provide you and your child with a "grace" period to get used to and clearly understand the new expectations for cell phone use. Staff will remind students of the new policy and request that they put them away. Students will not be permitted to use a cell phone on campus during the hours of 8:20 a.m. to 3:20 p.m. Cell phones must be off and secured in their personal clothing, purse, or in their locker. If a cell phone is observed, heard, or in use by the student, the phone will be confiscated, delivered to the office, and placed in an envelope. The consequences for students who choose not to follow the policy will be as follows:

1st offense:

- *Cell phone confiscated and held in office until the end of the day.*
- *At the end of the day, students may pick up their cell phone after they sign a form acknowledging receipt of their phone.*

2nd offense:

- *Cell phone confiscated and held in office until the end of the day.*
- *At the end of the day, students may pick up their cell phone after they sign a form acknowledging receipt of their phone.*

3rd offense:

- *To retrieve the phone, a mandatory meeting with the principal, the parent/guardian, and the student is required.*
- *A parent or guardian will sign for the cell phone, acknowledging receipt after a meeting.*

Additional offenses of an unsecured cell phone or unpermitted use, will be considered chronic insubordination and therefore these students will receive an appropriate administrative disciplinary consequence. Also, a student who refuses to comply with a request from staff to surrender their cell phone will be considered defiant and will receive an appropriate administrative disciplinary consequence.

Our goal is to create a safe environment that is conducive to learning and free of all distractions that may hinder the learning process. If you have any questions or concerns, please do not hesitate to contact the intermediate school office at 540-667-7171. Thank you for your continued support of Daniel Morgan Intermediate School.

Sincerely,

Dr. Matthew Wygal, Principal, Daniel Morgan Intermediate School

Querido padre o titular de los estudiantes de Daniel Morgan:

El campamento de Daniel Morgan está implementando una nueva póliza de celulares. La nueva póliza de celular es el resultado de el reviso de los datos disciplinarios y discusiones con nuestra facultad y personal. Desgraciadamente, los estudiantes de secundaria no siempre lo usan para propósitos apropiados. Aunque los celular puedan ser usados para propósitos instrucionales y son convenientes para hacer contacto despues de clases, hemos encontrado que muchos estudiantes los mal usan durante tiempo instruccional.

Mi revisión de los datos de la disciplina sugieren que son usados a menudo como una distracción personal durante el aprendizaje, usados para el intercambio de información inapropiada, y en algunos casos como acoso cibernético. Parte de nuestra implementación del programa PBIS (por sus iniciales en Ingles) Intervención y Apoyo de Comportamiento Positivo es enfatizar al personal la importancia de enseñarle a los estudiantes comportamientos apropiados. Este año los maestros les enseñaran a los estudiantes uso seguro y apropiado de la tecnología celular en la escuela. Adicionalmente, le explicaremos a los estudiantes las consecuencias cuando deciden no cumplir con nuestras expectativas. Padres son alentados a llamar la linea de telefono de la escuela para dejar un mensaje que pueda y sea urgente a su hijo. Si un estudiante tiene un mensaje urgente para sus padres, también lo acomodaremos. Después de clases, estudiantes podrán usar su celular para poder contactarse con usted.

Nosotros queremos proveer a usted y a su hijo un periodo de "gracia" para que se acostumbren y entiendan claramente las nuevas expectativas de el uso de celular. El personal le recordaran a los estudiantes de la nueva póliza y pedir que los aguarden. Los estudiantes no serán permitidos usar su celular en el campamento durante las horas de 8:20 am a 3:20 pm. Los celulares tienen que estar apagados y asegurados en su ropa personal, bolsa o en sus armarios. Si un celular es observado, escuchado o en uso por el estudiante, el teléfono será confiscado, mandando a la oficina y puesto en un sobre. Las consecuencias para los estudiantes que eligan no seguir la póliza son las siguientes.

1ra ofensa:

- Celular será confiscado y mantenido en la oficina hasta el final del dia.
- Al final del dia, estudiantes podrán recoger su celular después de firmar un formulario que admite que recibieron su teléfono.

2da ofensa:

- Celular será confiscado y mantenido en la oficina hasta el final del dia.
- Al final del dia, estudiantes podrán recoger su celular después de firmar un formulario que admite que recibieron su teléfono.

3ra ofensa:

- Para recuperar el teléfono, una junta mandatoria con la directora, el padre o titular y el estudiante es requerida.
- Un padre o titular firmará por el celular admitiendo que recibieron el teléfono despues de la junta.

Ofensas adicionales de un celular no asegurado o uso no permitido será considerado una insubordination crónica y por lo tanto estos estudiantes recibirán una consecuencia disciplinaria administrativa apropiada, También el estudiante que se niege a complir con la petición que entregue su celular será considerado desafiante y recibirá consecuencias disciplinarias administrativas apropiadas.

Nuestra meta es crear un ambiente seguro que sea conductivo al aprendizaje y libre de toda distracción que puedan impedir el proceso de aprendizaje. Si tiene cualquier pregunta o preocupaciones por favor no dude en contactar la oficina de la secundaria al 540-667-7171. Gracias por su continuo apoyo a la Escuela Secundaria Daniel Morgan.

Sinceramente,
Dr. Matthew Wygal, Director, Daniel Morgan Intermediate School
