

# Winchester Learning Labs

Winchester Learning Labs is intended to be a community-led, safe-space program designed to minimize learning loss and increase socialization opportunities during the 2020-2021 year. The Learning Labs program is currently being created. When launched it will consist of multiple sites around the city where students can go on virtual learning days for some or all of the day. Sites will follow strict COVID-19 safety regulations. Below please find sites that are currently operating and have availability for students. For more information please reach out to the organizations directly.
