## Introduction

This manual describes the process for renewing Virginia's educators' licenses through an individualized plan. In response to 2018 General Assembly legislation (House Bill 1125 and Senate Bill 349), effective July 1, 2018, the Board of Education issues ten-year renewable licenses. Five-year renewable licenses are no longer issued.

Individuals who hold a **ten-year renewable license** must complete **270 points for renewal**, including statutory requirements for renewal. Individuals will provide evidence of completing renewal activities that address at least one of **8 Standards** (page 5) and that fall into one of **8 Options** (page 11). The point-value for various professional development activities are outlined in this manual.

License holders are responsible for meeting license renewal requirements as set forth in the *Licensure Regulations for School Personnel* and the *Code of Virginia*. The *Virginia Licensure Renewal Manual for Five-Year Licenses* and the *Virginia Licensure Renewal Manual for Ten-Year Licenses* provide guidance for all license holders in planning their personal growth within the profession. For more information on the responsibilities of the license holder, advisor, and educational agency, and the Virginia Department of Education (VDOE) see the Frequently Asked Questions section (Appendix B).

Before completing a renewal request, please review the following key points:

- All statutory renewal requirements must be completed for each renewal request.
- All activities must have prior approval from the chief executive officer or designee if the license holder is employed in a Virginia educational agency. If not employed by a Virginia educational agency, the applicant will submit all documentation related to activities for VDOE staff to review; pre-approval may be requested prior to completion of activities (see below).
- There shall be complete reciprocity among employing educational agencies of the Commonwealth with respect to professional development points earned by the license holder.
- The Division Superintendent license, Postgraduate Professional license, Collegiate Professional license, Online Teacher license, Pupil Personnel Services license, Vocational Evaluator license (no longer issued), School Manager license, or Technical Professional license may be renewed.
- In cases of employed division superintendent licenses, renewal points must be approved by an executive officer other than themselves.

### ***Submission Process Overview***

Employment status determines how renewal requests are submitted. Complete instructions for submission are included on page 8.

- **If employed in a Virginia educational agency:**
  - Individuals will submit a completed renewal packet directly to the appropriate individual in the employing Virginia school division or Virginia accredited nonpublic school. The agency is responsible for verifying all requirements, including renewal points, and will then submit the request for renewal to the VDOE Office of Licensure.
- **If not currently employed with a Virginia educational agency:**
  - If an individual is not employed by a Virginia school division or Virginia accredited nonpublic school, the renewal application should be submitted to:

The Virginia Department of Education  
Department of Teacher Education and Licensure  
PO Box 2120, Richmond, Virginia 23218-2120

- An updated Application for License Renewal is required for a license to be issued. If an incomplete packet is submitted, an application will be retained for only one year.

## Standards

The substance or content of each renewal activity must be consistent with the license holder's goal(s) for professional growth and development and must clearly align with one or more of eight **Standards**. License holders should choose, and advisors should verify, only those activities in which the professional development and learning activities align with the below Standards.

Although individuals may choose activities related to any of the below Standards, the only Standard that is specifically mandated by the Board of Education is Standard 5. However, despite the Board's specific reference to Standard 5, it is important to note that Standard 5 is effectively satisfied by completing the Cultural Competency Training, as prescribed by the Board of Education.

- **Standard 1: Professional Knowledge/Leadership/Organizational Management**
- **Standard 2: Instructional Planning**
- **Standard 3: Instructional Delivery/Instructional Leadership**
- **Standard 4: Assessment of/for Student Learning**
- **Standard 5: Learning Environment/School Climate/Communication and Community Relations/Safety (Social Emotional Learning/ Trauma Information Teaching/Classroom Management)**
- **Standard 6: Culturally Responsive Teaching and Equitable Practices)**
- **Standard 7: Professionalism**
- **Standard 8: Student Academic Progress**

Refer to the [\*Guidelines for Uniform Performance Standards and Evaluation Criteria for Teachers, Principals, and Superintendents\*](#) to review the performance standards and indicators.

## Renewal Requirements for All License Holders

In order to meet renewal requirements, individuals must satisfy specific **Statutory Requirements**, the points for which count towards the required 270 renewal points. The remaining points may be earned through activities related to the **Standards** as outlined in the table below.

Table 1: Meeting Renewal Requirements

The Board of Education recognizes that many professional development activities topics address these Standards. **Refer to the [Guidelines for Uniform Performance Standards and Evaluation Criteria for Teachers, Principals, and Superintendents](#) to review the performance standards and indicators related to the above eight Standards.**

## Instructions for Submitting an Application for Renewal

Individuals are required to complete the requirements outlined for license renewal. **All statutory renewal requirements must be completed for each renewal request.** The process for submitting a renewal request depends on the individual's employment status at the time of the request:

**Individuals who are employed** with a Virginia public school division or with a Virginia accredited nonpublic school must submit their application and documentation to their employing educational agency. The agency is responsible for verifying all requirements, including renewal points, and will then submit the request for renewal to the VDOE Office of Licensure.

**Individuals who are not employed** with a Virginia educational agency should submit their application, fee, and documentation in a single packet to:

The Virginia Department of Education  
Department of Teacher Education and Licensure  
PO Box 2120, Richmond, Virginia 23218-2120

Those not employed with an educational agency who are unsure of whether an activity meets the criteria must submit a written request for pre-approval of the activity to the Virginia Department of Education, Office of Licensure and School Leadership. Information regarding this request can be found in the **FAQs** section (Appendix B).

**PLEASE NOTE:** Documents submitted to the Virginia Department of Education for review, as part of the renewal application, are not returned to the individual.

### ***Application Packet***

#### **Step 1: Application**

Please respond to all fields on the Application for License Renewal, whether online or on the paper application. The application for License Renewal is included in the Appendix. **The applicant is responsible for notifying the Department of Teacher Education and Licensure in writing of mailing address and name changes.**

## IMPORTANT NOTICES:

In accordance with § 63.2-1937 of the *Code of Virginia*, the Virginia Department of Education requires applicants for teacher licensure in Virginia to provide their Social Security numbers. Additionally, Virginia uses applicants' Social Security numbers to check the clearinghouse maintained by the National Association of State Directors of Teacher Education and Certification (NASDTEC) for license revocation, cancellation, suspension, denial, and reinstatement in other states. Virginia also reports information to the clearinghouse as needed. The Virginia Department of Education will not release your Social Security number except to the NASDTEC clearinghouse to report cases of license revocation, cancellation, suspension, denial, and reinstatement as noted above. Please note that if you do not provide your Social Security number, your application will not be processed and no Virginia teaching license will be issued.

If you responded affirmatively to any of the questions in **Part II** of the application, a letter of explanation and requested documentation must be submitted. The submission of an application for a Virginia license or request for license renewal may result in the denial of a license for any reason listed in the *Licensure Regulations for School Personnel*, 8VAC20-23-750. The denial of a license is an adverse licensure action that is reported to division superintendents in Virginia and to chief state school officers of the other states and territories of the United States and could affect the status of any license or certificate that the applicant holds in another state and/or the status of any application

### **Step 2: Nonrefundable Application Fee**

A \$50 nonrefundable fee is required to apply for license renewal. Attach a certified check, cashier's check, money order, or personal check made payable to the *Treasurer of Virginia*. School divisions will continue to have the option to submit payment for individual or batch renewal requests through an established VDOE account if desired. If an individual holds two renewable licenses (such as a Postgraduate Professional License and a Division Superintendent License), each license requires a \$50 renewal fee (total of \$100). The [detailed fee schedule for licensure](#) is available on the Licensure website.

### **Step 3: Statutory Requirements**

**All statutory renewal requirements must be completed for each renewal request, including those requirements that may already have been previously completed for initial licensure.** For example, although a teacher may have completed the Child Abuse and Neglect Recognition Training when requesting their initial license, the training will need to be completed again for renewal. Include a copy of each certificate verifying completion of the statutory requirements. Points earned for each activity will be applied to the 270 required renewal points **under Option 8**. Individuals seeking license renewal **must** complete the following requirements:

- Child Abuse and Neglect Recognition Training (**5 points**)
- Emergency First Aid, CPR (including hands-on practice), and AED Training or Certification (**5 points**)
- Dyslexia Awareness Training (**5 points**)
- Cultural Competency Training (**15 points**)
- Special Education Training (**2 modules; 5 points per module**)
- Training in the Recognition of Mental Health Disorder and Behavioral Distress (*Only required for School Counselors; 5 modules; 2 points per module*)
- Virginia History or State and Local Government Module (*Only required for licensees who hold any endorsement listed on pages 22-22; 5 points*)
- African American history instruction, forthcoming (*Only required for licensees who hold a History and Social Sciences endorsement; points TBD*)

Details on each of these trainings, including how to access them and the required documentation, are included in **Appendix A**, and are also available on the [VDOE website](#). The Board of Education has provided a waiver for this requirement for any person with a disability whose disability prohibits such person from completing the certification or training. An individual requesting a waiver must submit a “[Request for a Waiver Form](#).”

#### **Step 4: Professional Development Renewal Points:**

In addition to the points accumulated by completing the above Statutory Requirements, the remaining renewal points needed to reach 270 will be met by addressing at least one of the eight Standards set forth in this manual (see Table 1).

In order to count towards renewal points, all activities must have prior approval from the chief executive officer or designee if the license holder is employed in a Virginia educational agency. Individuals who are not employed by a Virginia educational agency who are unsure of whether an activity meets the criteria must submit a written request for pre-approval of the activity to the Virginia Department of Education, Office of Licensure and School Leadership. Information regarding this request can be found in Appendix B. There shall be complete reciprocity among employing educational agencies of the Commonwealth with respect to professional development points earned by the

license holder. Professional development activities completed by provisional license holders may not be credited towards license renewal.

There are eight **Options** for renewal activities. The options are described, in detail, below.

**A renewal activity should NOT be a routine employment responsibility.**

The activity can only be reported under one renewal option. For example, an educator who participates in a special project assigned by the division superintendent for an extended period of time (Option 7) and writes an article about the experience (Option 4) may not earn points for both options. Note that some activities include a point minimum, as outlined below.

***Option 1: College Credit***

Acceptable coursework offers content that provides new information and is offered by a regionally accredited two-year or four-year college or university. Courses must be taken for credit, and the license holder must earn a passing grade or a “pass” in courses taken on a “pass” or “fail” basis.

  - d. Must be verified by an official transcript or official student transcript.
- D. Verification:

Official transcripts or official student transcripts are accepted. Transcripts may be submitted to the chief executive officer or designee of the employing educational agency or to the Virginia Department of Education, if the license holder is not employed.

Once you have completed coursework from an accredited college or university, contact the registrar’s office of the institution(s). Request official student transcripts to be sent to you, and submit the transcripts in a **sealed** envelope with your application packet.

Official student transcripts (bearing the registrar's signature and embossed seal) that have been issued to students are acceptable, as long as they are in a sealed envelope.

Additionally, transcripts may be electronically submitted directly to the Virginia Department of Education via Parchment or National Student Clearinghouse.

Some institutions contract with other companies to issue official transcripts. The transcripts may be accepted if received in **sealed** envelopes. Placement records sent from colleges, electronic transcripts, grade reports, PDFs, photocopies, and student printouts of transcripts will not be accepted or returned.

***Option 8: Professional Development Activities***

Staff development programs have become more sophisticated in recent years with the advent of needs assessment, program design, training, implementation follow-up, and evaluation components being included in professional development activities. The research on effective staff development includes a large body of knowledge on adult learning that describes which types of programs will best meet the instructional, psychological, emotional, and physical needs of the participants. Quality staff development is sequential in nature and needs ongoing support and/or follow-up in-service programs.

Local employing educational agencies are encouraged to design staff development activities using teams of teachers, administrators, and central office personnel working in a collaborative effort to enhance professional performance and advance the goals of the employing educational agency.

The completion of high quality microcredentials may be accepted toward license renewal. Microcredentials are an emerging way for educators to demonstrate their knowledge and/or skill in a particular topic through competency-based evidence. The microcredential must be approved by the employing educational agency or the Virginia Department of Education.

Completion of the statutory requirements are also considered a part of professional development and should therefore be reported under Option 8 on the application.

### **Frequently Asked Questions**

#### ***What if I need an advisor to approve and sign off on my activity points?***

If an advisor has not been designated for the license holder, the licensee should inform the chief executive officer or designee of the Virginia employing educational agency of the need for an advisor. The chief executive officer or designee must then assign an advisor to the license holder.

#### ***When may I submit my application for renewal?***

The Application for License Renewal, the fee, and supporting documentation may be submitted to the Department of Teacher Education and Licensure, Virginia Department of Education (VDOE), **after January 1** of the year of expiration. All licenses are issued with an effective date of July 1.

License holders employed in a Virginia public school or accredited nonpublic school shall submit all documentation to the designated school division or nonpublic school official as prescribed and directed by the employer. The employer will then submit the documentation to the VDOE on the license holder's behalf.

#### ***What if I am not currently employed in a Virginia public school or accredited nonpublic school?***

Individuals who are not employed in a Virginia educational agency should submit the Application for License Renewal, fee, and documentation to:

The Virginia Department of Education  
Department of Teacher Education and Licensure  
PO Box 2120  
Richmond, Virginia 23218-2120

Please note the licensure office does not accept requests or documents via email or fax.

Individuals who are not employed by a Virginia educational agency who are unsure of whether an activity meets the criteria must submit a request for pre-approval of the activity to the same address above. The request for pre-approval of a renewal activity must include the license holder's full name, Virginia license number, current mailing address and documentation of the activity for which pre-approval is being requested.

#### ***What if I don't agree with a decision about my renewal activities?***

Disagreements regarding renewal activities for which points are awarded are subject to an informal review procedure as follows:

- A. The license holder shall discuss the matter with their advisor and request reconsideration.
- B. If the disagreement is not resolved, the license holder shall state in writing:
  - 1. the action that prompted the request for review,
  - 2. the names of the persons involved, and
  - 3. the attempts that have been made to resolve the disagreement.
- C. The license holder shall send this statement, with a copy of the renewal plan in question, to the chief executive officer or designee of the employing educational agency and request a decision. The agency shall then follow personnel review procedures established in that agency.
- D. If the decision of the chief executive officer or designee does not resolve the disagreement, the documentation should be forwarded to the Virginia Department of Education, Department of Teacher Education and Licensure, for resolution.

***What if my license has expired?***

A license need not be active in order to be renewed. An expired license may be renewed by following the guidelines set forth in this manual. Renewal activity, including statutory requirements must have been completed within the ten- year period prior to the time of the renewal requested. For example, if a request for renewal is submitted in 2028, all activity must have been completed since 2018.

***What is the relationship between the License Holder, Advisor, Employing Educational Agency, and Virginia Department of Education?***

The renewal process described in the manual is based on mutual trust between the license holder and an advisor. The license holder and advisor should collaborate for the purpose of professional self-improvement. While advisor systems will vary among employing educational agencies, all designated advisors will be responsible for promoting quality renewal plans by confirming and assessing the proposed professional development activities suggested by the license holder. Inherent in this trust are discussions to ensure that the individual's professional growth occurs as intended for renewal. The advisor should provide assistance and resource information regarding renewal options that the individual may elect to include within their plan. The manual builds upon the conviction that all license holders are willing to be responsible for planning and completing professional development activities leading to their renewal.

Employing educational agencies must recognize the validity of the eight Options for activities that address the Standards. Agencies are encouraged to provide opportunities for license holders to participate in all Options for renewal. Although the employing educational agency's staff development priorities should be considered, the license holder should be the primary determiner of which activities within the options will contribute most appropriately to their renewal plan.

***What is my responsibility as a license holder?***

To complete the requirements for renewal, the license holder should annually plan and review their program of professional development activities in consultation with an advisor who has been designated by the employing educational agency. When the renewal activity has been completed, the license holder must supply reasonable documentation to the advisor. The license holder and advisor should submit the Application for License Renewal, documentation, and fee to the chief executive officer or designee of the employing educational agency.

The license holder is responsible for completing the following steps in order to accrue the 270 professional development points necessary for renewal:

- A. Develop an individualized renewal plan based on the license holder's professional need(s)/goal(s) and the employing educational agency's staff development priorities; and
- B. Initiate an annual meeting with the advisor, as necessary, to review, amend, and verify the individualized renewal plan and activities on the Application for License Renewal. The record should be completed and signed by the advisor after January 1 but before June 1 of the final year of the current validity period. (The license holder may amend the individualized renewal plan during the annual review or at any other appropriate time in consultation with the advisor.)

With the advisor, verify and submit the completed Application for License Renewal to the chief executive officer or designee of the employing educational agency to be forwarded to the Department of Teacher Education and Licensure. The completed Application for License Renewal, the official student transcript from the college or university, if applicable, appropriate fee, and signed verification of the completion of additional requirements will be the only items required for submission to the Virginia Department of Education by an employing Virginia educational agency for renewal of an expired license. Other documentation should be maintained at the local school division level or with the accredited nonpublic school.

***What is my responsibility as an advisor?***

The advisor should be a colleague who assists and supports the license holder throughout the renewal process. Discussions must occur during this process in order to ensure that individual professional growth occurs as intended for renewal purposes. An advisor assigned to a license holder has the following responsibilities:

- A. The advisor should know the requirements for renewal of a Virginia license;
- B. The advisor should review the license holder's individual renewal plan with the license holder on an annual basis or as necessary until the requirements for renewal have been satisfied. While the conference time may vary depending upon

- the needs of the license holder, a meeting with the advisor could be held in conjunction with other conference sessions throughout the year;
- C. The advisor should assist the license holder in completing a renewal plan by recommending activities that are consistent with the employing agency's staff development goals and the individual license holder's professional development goals and growth;
  - D. The advisor should verify that the professional development activities have been completed and that the points accrued for the activity are consistent with the criteria of this manual. The advisor must not sign the renewal plan if a selected activity does not meet the criteria in one of the renewal Options;
  - E. The program is built on the basis of trust; minimal paperwork is expected and reasonable documentation is all that is required if the advisor does not have personal knowledge of the activity; and
  - F. The advisor should forward the license holder's completed and verified Application for License Renewal to the chief executive officer or designee.
