WinReady is a **point-to-point** service operated by the City of Winchester that will pick you up and take you where you need to go in the City—**within 30 minutes!**

Did you know that WinReady On Demand:

is an example of microtransit, a **proven public transit system used across Virginia and the country?**

will allow the City to **more efficiently allocate transit resources** and save on fuel costs?

will make it easier for residents to **get to work, school, and shopping** on time, on their schedule?

provides the City greater operational flexibility that can **adapt as demand for the service changes?**
